EXCELLENT SERVICE

HIGHEST QUALITY

To My Customers and Friends—

To introduce this book with prices on flower seeds, I beg respectfully to call the attention of those interested to the following facts:

I will endeavor to supply to the gardener the best strains of flower seeds obtainable grown for me on contract by most reliable growers in the different countries where I have had an opportunity to gain the experience during 17 years of *practical* work not only in the seed trade, but in nurseries and branches allied to it; a fact of great importance for the selection of superior strains and superiority in quality.

In consideration of the above stated facts I trust that I may have the preference of your most valuable orders throughout this season and for many seasons to come. I am,

Yours faithfully,

ADRIAN J. SCHOORL.

Please keep copies of all your orders for comparison.

ZEHLENDORF STRAINS OF CYCLAMEN—

If you think of Cyclamen, certainly you are thinking of your leaders, "Perle von Zehlendorf" and "Rosa von Zehlendorf." Under the permanent control of the much critical Berlin growers of Cyclamen, the Zehlendorf Strains are developed to the highest degree of perfection, and are leading throughout Europe. Owing to the close co-operation of the two specialists of Zehlendorf, Mr. Dlabka and Mr. Rothe (successor of Kiausch), there is only a slight difference between both strains. The strain of Mr. Dlabka is more floriferous whilst the strain of Mr. Rothe, in consequence, has somewhat larger flowers. Both are also unrivalled for their fine shaped, enormous, and bright colored flowers. They are easy to grow, they resist diseases and are producing an astonishing amount of flowers. Feeling sure these two strains will give entire satisfaction even to the most delicate grower, I don't hesitate to recommend them most emphatically.

Mr. Rothe, who owns the finest flower shop of Europe, directed his special interest again toward the famous specialty of his predecessor, Mr. Kiausch. I am sure that the meritorious work of these two raisers will help to decrease the float of poor strains, which are to our regrets much exported to foreign countries.

Knowing that for every grower the best is always the cheapest I am offering these two strains as the best strains obtainable. They are worth the utmost confidence.

PETUNIAS, "Marvelous" Double. We take great pride in offering our double Petunias. They have never been surpassed in beauty, size, form or color, if ever equaled. Selection in crossing every flower was made with the greatest care and thought, and the results are a surprise even to ourselves.....

Giants of California: The "Giants of California" bear gigantic flowers often five or more inches in diameter, of an astonishing variety of colors. They embrace every conceivable shade of crimson, pink, lavender, yellow, black, pure white, etc. One of the chief points of excellence is the deep throat and diversity of veining in the throat. Many of the flowers have a clear yellow throat, while others have a pure velvety black one, so deep that it seems to show no veining; many are deeply lined and netted on a white, pink or lavender ground. Flowers are beautifully ruffled and frilled

Fringed Hybrida—A lovely Petunia with charming fringed flowers of exquisite forms and beautiful colors. Though not as large as the Giants, they are equally beautiful.....

New Single Petunia "Triumph"—This Petunia is well named, for it is a triumph of the breeder's skill. Large flower beautifully ruffled, of a clear bright pink. A fine bedder and a free bloomer
